Mobile Digital library van makes use of satellite connection for connecting to Internet.

User can make selection of books from various available options.

Once the book is selected it can be printed using printer fitted inside the van. After printing the book is bound using scorer, cutter and binding machine.

All this process takes very little time. The power connections and back-up is restored using gensets available inside the van.

The van will go to remote places demonstrating the technological aspects of use of digital library and inculcating reading habits.

THE ADVENTURES OF TOM SAWYER.

CHAPTER 1.

"TOM!"

Tom was quiet now, and the sun had closed his eyelids enough with its warm beams for him to sleep. He went to sleep.

The events of September 11th, 2001 affected the entire world.

The 9/11 Television News Archive is a library of news coverage of the events of 9/11/2001 and their aftermath as presented by U.S. and international broadcasters. A resource for scholars, journalists, and the public, it presents one week of news broadcasts for study, research and analysis.

Television is our pre-eminent medium of information, entertainment and persuasion, but until now it has not been a medium of record. This Archive attempts to address this gap by making TV news coverage of this critical week in September 2001 available to those studying these events and their treatment in the media.

Explore 3,000 hours of international TV News from 20 channels over 7 days, and select analysis by scholars.

**LEARNING FROM RECORDED MEMORY: 9/11 TV News Archive Conference**

Held on August 24, 2011 at New York University’s Department of Cinema Studies, this conference highlighted work by scholars using television news materials to help us understand how TV news presented the events of 9/11/2001 and the international response.

After brief welcoming remarks by Howard Besser, Director of New York University’s Moving Image Archiving & Preservation Program and Richard Allen, Department of Cinema Studies, Tisch School of the Arts, New York University, 10 speakers presented the following short talks and ensuing discussion, which you can watch on the Internet Archive.

Special Agent [redacted]
Federal Bureau of Investigation

Re: National Security Letter Dated November 26, 2007 to Internet Archive

Dear Special Agent [redacted],

This letter is in response to the National Security Letter ("NSL") you served upon the Internet Archive through its counsel, the Electronic Frontier Foundation ("EFF"), on November 26, 2007.

As explained below, the Archive is voluntarily providing responsive public information, but is not providing the non-public information requested by the NSL because the statutes governing the NSL, 18 U.S.C. §§ 2709 and 3511, are unconstitutional and because the Archive is not subject to the NSL statute under either 18 U.S.C. § 2709(a) or under 18 U.S.C. § 2709(f).

President Bush Announces Combat Operations in Iraq Have Ended
Remarks by the President from the USS Abraham Lincoln At Sea Off the Coast of San Diego, California

THE PRESIDENT: Thank you all very much. Admiral Kelly, Captain Card, officers and sailors of the USS Abraham Lincoln, my fellow Americans: Major combat operations in Iraq have ended. In the battle of Iraq, the United States and our allies have prevailed. (Applause.) And now our coalition is engaged in securing and reconstructing that country.

In this battle, we have fought for the cause of liberty, and for the peace of the world. Our nation and our coalition are proud of this accomplishment -- yet, it is you, the members of the United States military, who achieved it. Your courage, your willingness to face danger for your country and for each other, made this day possible. Because of you, our nation is more secure. Because of you, the tyrant has fallen, and Iraq is free. (Applause.)

Operation Iraqi Freedom was carried out with a combination of precision and speed and boldness the enemy did not expect, and the world had not seen before. From distant bases or ships at sea, we sent planes and missiles that could destroy an enemy division, or strike a single bunker. Marines and soldiers charged to Baghdad across 350 miles of hostile ground, in one of the swiftest advances of heavy arms in history. You have shown the world the skill and the might of the American Armed Forces.

This nation thanks all the members of our coalition who joined in a noble struggle to secure liberty. All of you, whether in the armed forces or the civilian support, have contributed to this historic victory.

Iraq does not belong to al Qaeda. Iraq is not part of any nation spread to impose its will on others. Iraq is a free and sovereign nation, at peace with its neighbors, and at peace with itself. Today, more than 100,000 coalition forces are standing down, and their immediate mission of combat is complete.

The road of freedom is never smooth. But freedom is a goal that is worth reaching for. It is worth reaching for in your name, for our children, for a safer world.

Thank you. Good night.

Japan's devastating earthquake in pictures

TOKYO (AP) — A powerful tsunami spawned by the largest earthquake in Japan's history slammed the eastern coast Friday, sweeping away boats, cars, homes and people as widespread fires burned out of control. A local news report said at least 15 people were killed.

The magnitude 8.9 offshore quake was followed by at least 19 aftershocks, most of them of more than magnitude 6.0. Dozens of cities and villages along the 2,100-kilometer stretch of the country's eastern shore were shaken by violent tremors that reached as far away as Tokyo, hundreds of kilometers from the epicenter in the sea off the northeastern coast.
