**What is the Collective Subscription of Korean e-resources?**

In an effort to make the highly requested e-resources affordable to overseas libraries, **the Subcommittee on Korean Studies E-Resources** negotiates with the two e-resource vendors (**e-Koreanstudies** and **Nurimedia**) for group subscription prices, which are much lower than the vendor's list prices. Also, **the Korea Foundation** provides a grant program to eligible universities to offset the user/subscription fees that are required to access online Korean Studies e-resources.

**e-Korean Studies** and **Nurimedia** have been providing online access to many indispensable e-resources for Korean studies to students, faculty, and researchers worldwide.

For detailed information on subscriptions and grant application procedures, please **contact** each vendor, the Korea Foundation, or the Task Force on Korean Studies E-Resources.
