

One Dipper Out of Thousands--The Web Portal in U. Illinois IMLS Grant Project

This presentation will focus on the web portal, one important component of the U. of Illinois IMLS grant project. In recognizing the challenges and opportunities we are facing as Chinese studies librarians, the grant project made sure to address the needs of U.S. librarians and their users in seeking China related information in an increasingly international and interdisciplinary information environment. We are facing the language and cultural challenges, but if we can cross these boundaries, we may fill the bucket with one more dipper. Our project is just one approach out of many.
