If you've been sexually harassed or assaulted write 'me too' as a reply to this tweet.

Me too.

Suggested by a friend: "If all the women who have been sexually harassed or assaulted wrote 'Me too' as a status, we might give people a sense of the magnitude of the problem."

  - In 2018 #MeToo was validated in midterm elections which voted 117 women to congress, following the controversial Brett Kavanaugh’s appointment to Supreme Court despite accusations of sexual assaults

#MeToo Development in China

- Most cases have some positive responses and results.
- Women’s rights issues are discussed in public discourse and unprecedentedly become openly shared and discussed topics in multiple social media and web networks.
- Almost all groups of women no longer hold the sufferings and injustice to themselves but speak out and publicize their experiences and voices.
- Continuous litigation efforts, including activists petitioned recent National Congress & Parliament participants to set up legal mechanism against sexual harassment in three areas of public space (work sites, colleges and public transportation).
- But very few perpetrators have been charged or indicted for sexual crimes; many first chose to “accuse accusers” for libel and defamation.
- Strongly debated, still misunderstood and disliked by many patriarchal men.
To Master Xuecheng: “努力忏悔，安度余年 (Repent hard, live remaining years peacefully)”

Conclusion

- #MeToo in the U.S. gave birth to #MeToo in China, which is an integral part and facilitating factor of women’s rights movement in China.

- While the Digital Media Archive of #MeToo of Schlesinger Library at Harvard excludes China, our Digital Archive of #MeToo and Women’s Rights Movement in China under Ivy Plus Libraries Confederation wishes to bridge the gap and provide new digital library resources for Chinese feminism studies.

- We hope that the Digital Archive of #MeToo and Women’s Rights Movement in China will be made available and accessible next year.
