

**FROM I-CHING TO MANGA:**  
UCI's East Asian Collection  
Celebrating 30 Years

**Birth And Growth**  
1990-2020

The decision to launch the EAC occurred within the confluence of several factors. UCI was recruiting East Asian faculty of stellar credentials and reputations. The East Asian curriculum was expanding in course offerings and degree programs. The student body demographics were changing. Such changes mirrored those of the University's surrounding community and those of the State.

Presented by Ying Zhang (yingz@uci.edu), Research Librarian for Asian Studies, University of California, Irvine

The East Asian Collection is an invaluable resource for students, faculty, and community members studying a wide range of topics related to Korea, China, and Japan. In addition, the EAC fosters a **"global perspective"** that is vital to understanding the world today. It acts as a gateway to global perspectives that will become increasingly important in the future for discovering solutions to address society's grand challenges.
