

TOME Metadata

Increasing Visibility of Open Access
Monographs

Jeff Edmunds

17 March 2022

ERMB Meeting

What is TOME?

- **Toward an Open Access Monograph Ecosystem; launched in 2017 as 5-year pilot by Association of American Universities (AAU), Association of Research Libraries (ARL), and Association of University Presses (AUPresses)**
- **Grants of \$15,000 toward OA monographs of 90,000 words or fewer**
- **60+ university presses commit to OA editions of TOME volumes, licensed under Creative Commons licenses, and depositing the files in selected open repositories (e.g. OAPEN)**
- **~93 titles to date, humanities and social sciences**

TOME at Penn State

- **Went through list of titles at <https://books.openmonographs.org/>**
- **Searched our catalog for records**
- **Added records from OCLC when they did not exist in our catalog**
- **Tagged them as Open Access (MARC fields 506, 856\$z and \$7)**
- **Created original record in OCLC for one TOME title that had not been cataloged**

TOME Metadata Group

- **Jonathan Greenberg** (Digital Scholarly Publishing Specialist, NYU Libraries)
- **Sofia Slutskaya** (Head of Resource Description, Emory Libraries)
- **Alexandra Provo** (Metadata Librarian for Arts & Cultural Heritage Resources, NYU Libraries)
- **Alexander Whelan** (Metadata Strategist, NYU Libraries)
- **Joshua Dieringer** (Metadata Specialist, University of Minnesota Libraries)
- **Charlene Chou** (Head, Knowledge Access, NYU Libraries)
- **Jeff Edmunds** (Digital Access Coordinator, Penn State University Libraries)

TOME Metadata Work

- **Discussed mechanisms for making sure metadata is available for the existing titles**
- **Created TOME Collection in WorldShare Collection Manager**
- **Investigated creating TOME collections in ALMA CZ and SerialsSolutions KB**
- **Informed OAPEN of which TOME titles were missing from its TOME collection**
- **Informed TOME Project Manager of titles in OAPEN showing up as part of TOME but not on TOME's list**

Open Questions

- **Who creates records and when?**
- **How does TOME let catalogers know title is imminent?**
- **Which URL(s) should be in records?**
- **Should TOME URLs or DOI be added to existing OCLC records?**
- **Should records have OA markers (506, 856\$7)?**
- **How can the records be marked as being part of TOME?**
- **Duplication in OAPEN/DOAB/etc.**

Questions? Comments?

Thank You !

谢谢!

감사 해요!
