1. What is KNPA?

KONG & PARK Acquisitions

It is an acquisition system designed to simplify the process of purchasing Korean books for overseas library collections.

In both Korean and English, it overcomes language barriers that otherwise limit non-Korean speakers.

KNPA features

1. Comprehensive book search
 2. Real time duplicate check
 3. Account usage
 4. Book recommendation
 5. Approval plan
 6. Purchase settlement & packing
 7. Romanization
- * Support for shelf-ready services
 - * Support for eBook library

2. KNPA features

1 Comprehensive book search

📖 Libraries can search and purchase all the books published in Korea.

📖 Print books & ebooks

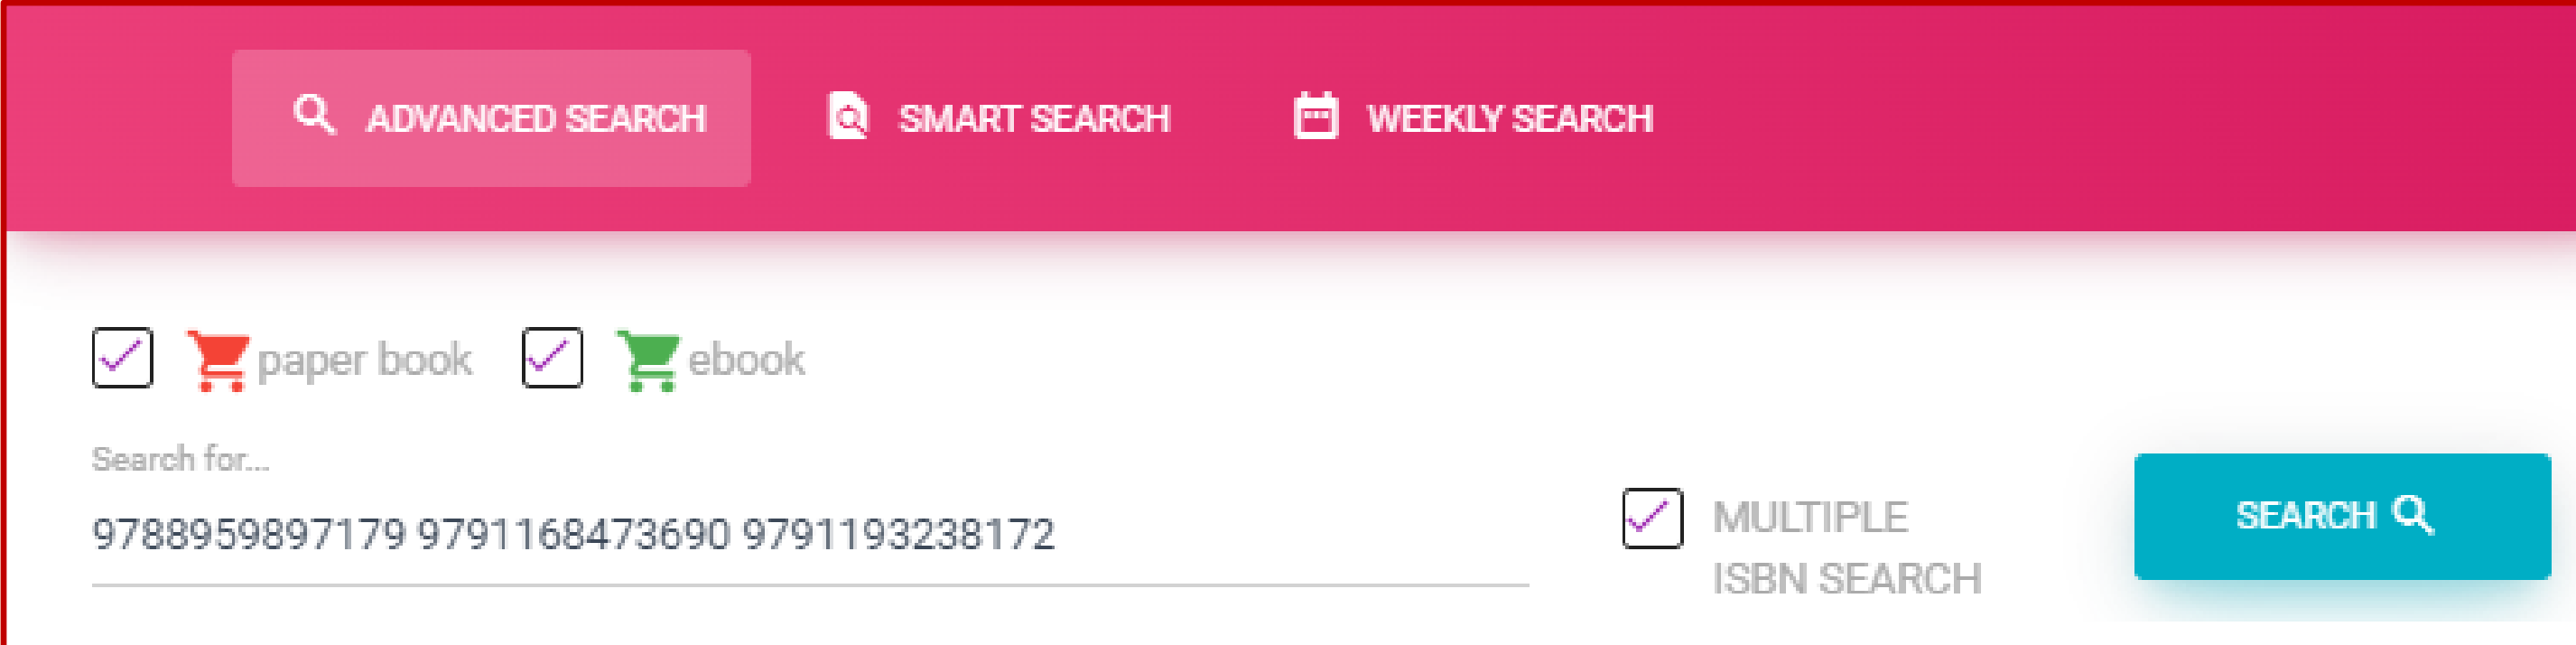

📖 KNPA's book info is updated with data from Kyobo Bookstore, Korea's largest book distributor

The screenshot displays the KNPA Book Search interface. At the top, there are search options: ADVANCED SEARCH, SMART SEARCH, and WEEKLY SEARCH. A search bar is present with a 'SEARCH' button. Below the search bar, there are checkboxes for 'paper book' and 'ebook', and a 'MULTIPLE ISBN SEARCH' checkbox. The search results are displayed in a table with columns: Number, Title, Author, Publisher, Publication Day, Net price, and Actions. The table lists several books with their respective details and options for purchase.

Advanced search - multiple ISBN search

Specific search

The screenshot shows a search interface with a pink header bar containing three search options: 'ADVANCED SEARCH' (selected), 'SMART SEARCH', and 'WEEKLY SEARCH'. Below the header, there are two checked checkboxes for 'paper book' and 'ebook'. A search input field contains the text '9788959897179 9791168473690 9791193238172'. To the right of the input field is a checked checkbox for 'MULTIPLE ISBN SEARCH'. A blue 'SEARCH' button with a magnifying glass icon is located on the right side of the form.

📖 **Smart search** – keywords, publisher, publication date

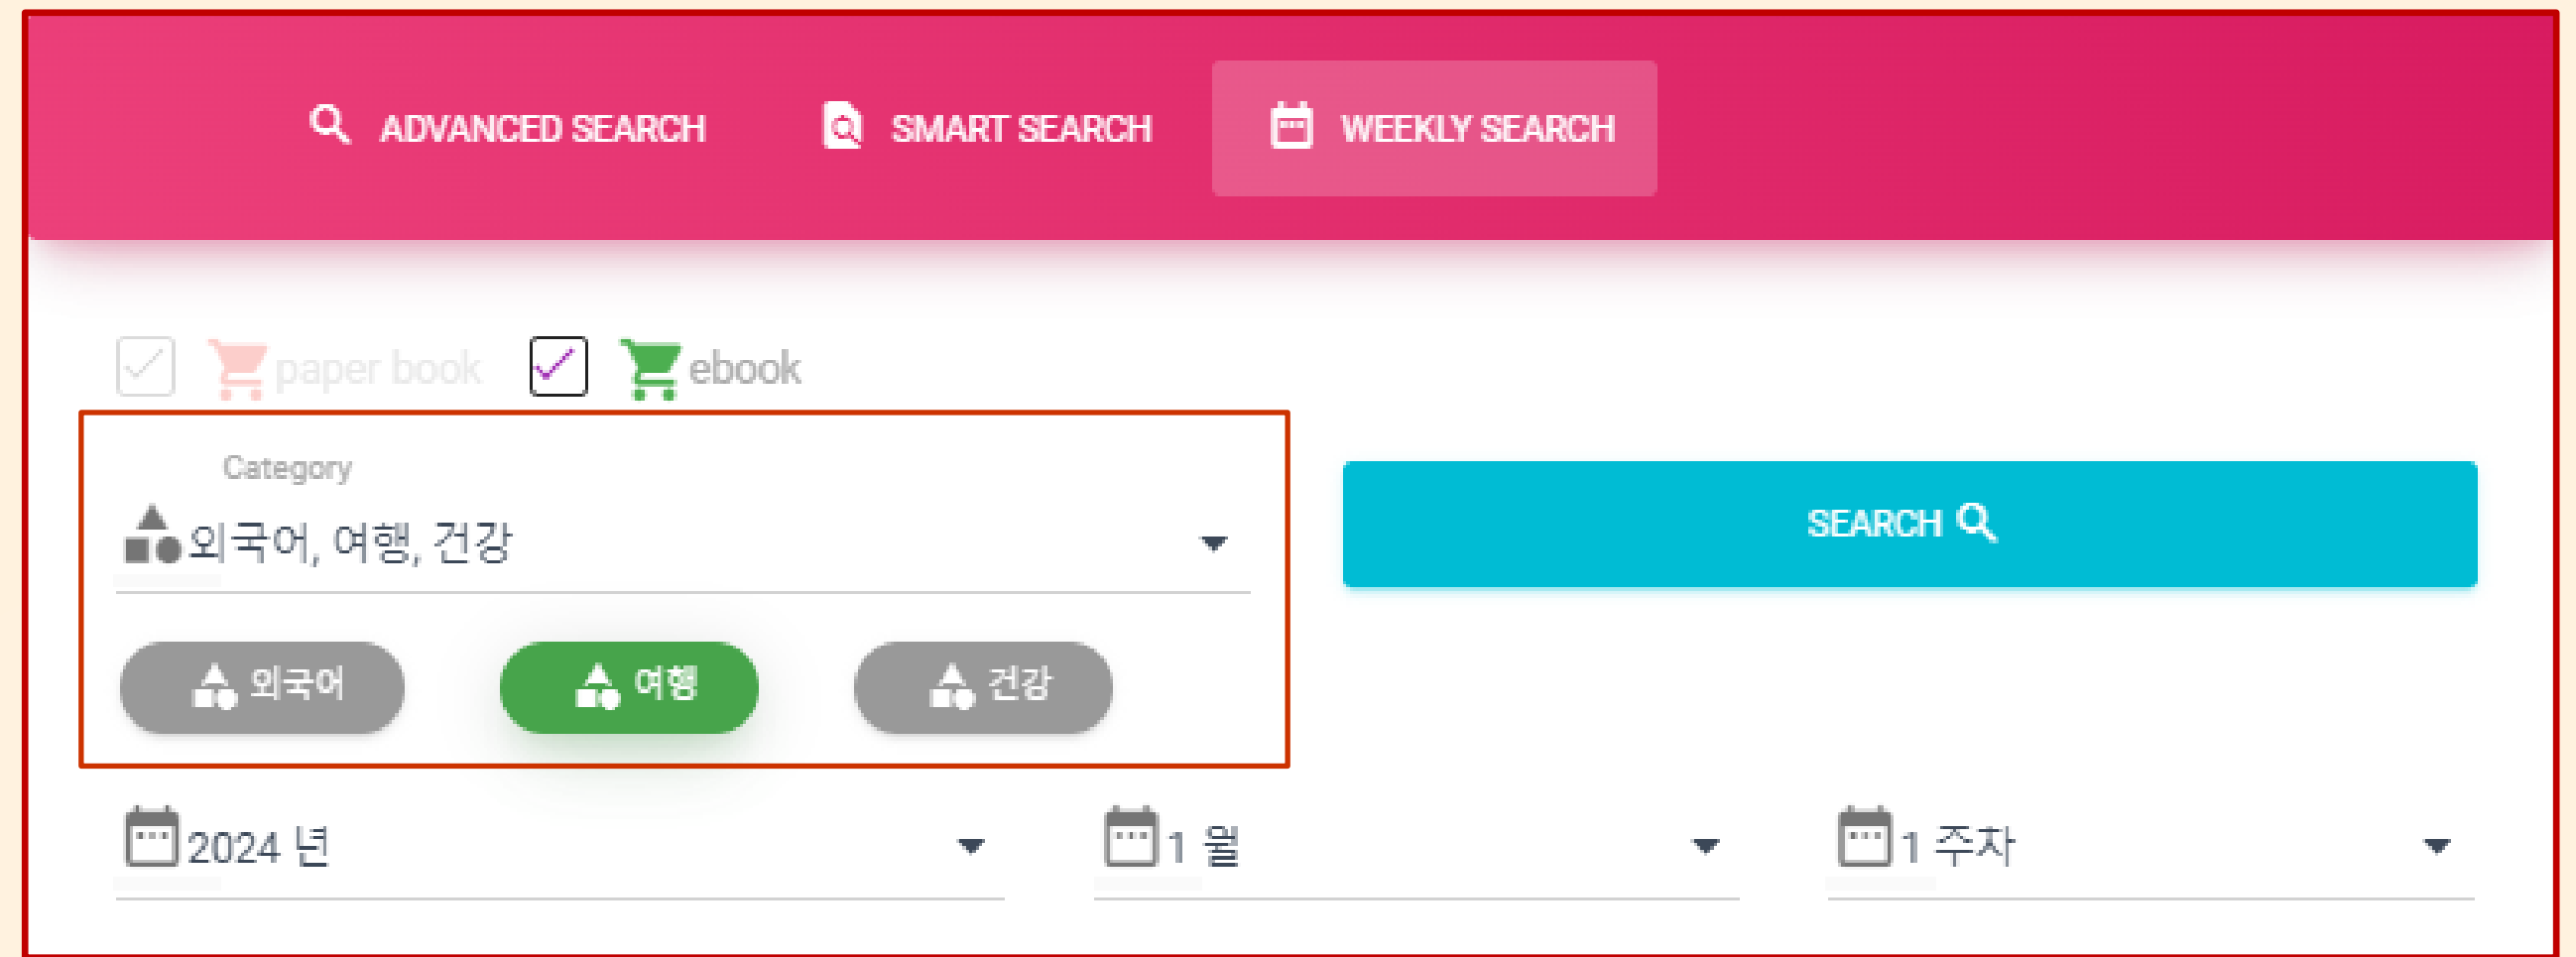

📖 Broader search results

The screenshot displays the 'SMART SEARCH' interface. At the top, there are three tabs: 'ADVANCED SEARCH', 'SMART SEARCH' (which is active), and 'WEEKLY SEARCH'. Below the tabs, there are three filter categories: 'paper book' and 'ebook' (both checked), 'Publication period' (with a calendar icon), 'Publisher' (with a dropdown arrow and 'KDC' selected), and 'Add keyword...' (with a keyboard icon). To the right of these filters is a large blue 'SEARCH' button. Below the search button, there are three horizontal sliders labeled '중요도' (Importance) in Korean, each with a scale from 1 to 10 and a circular handle at the start.

📖 **Weekly search** – weekly new publications, can be filtered by categories

Shelf-ready services

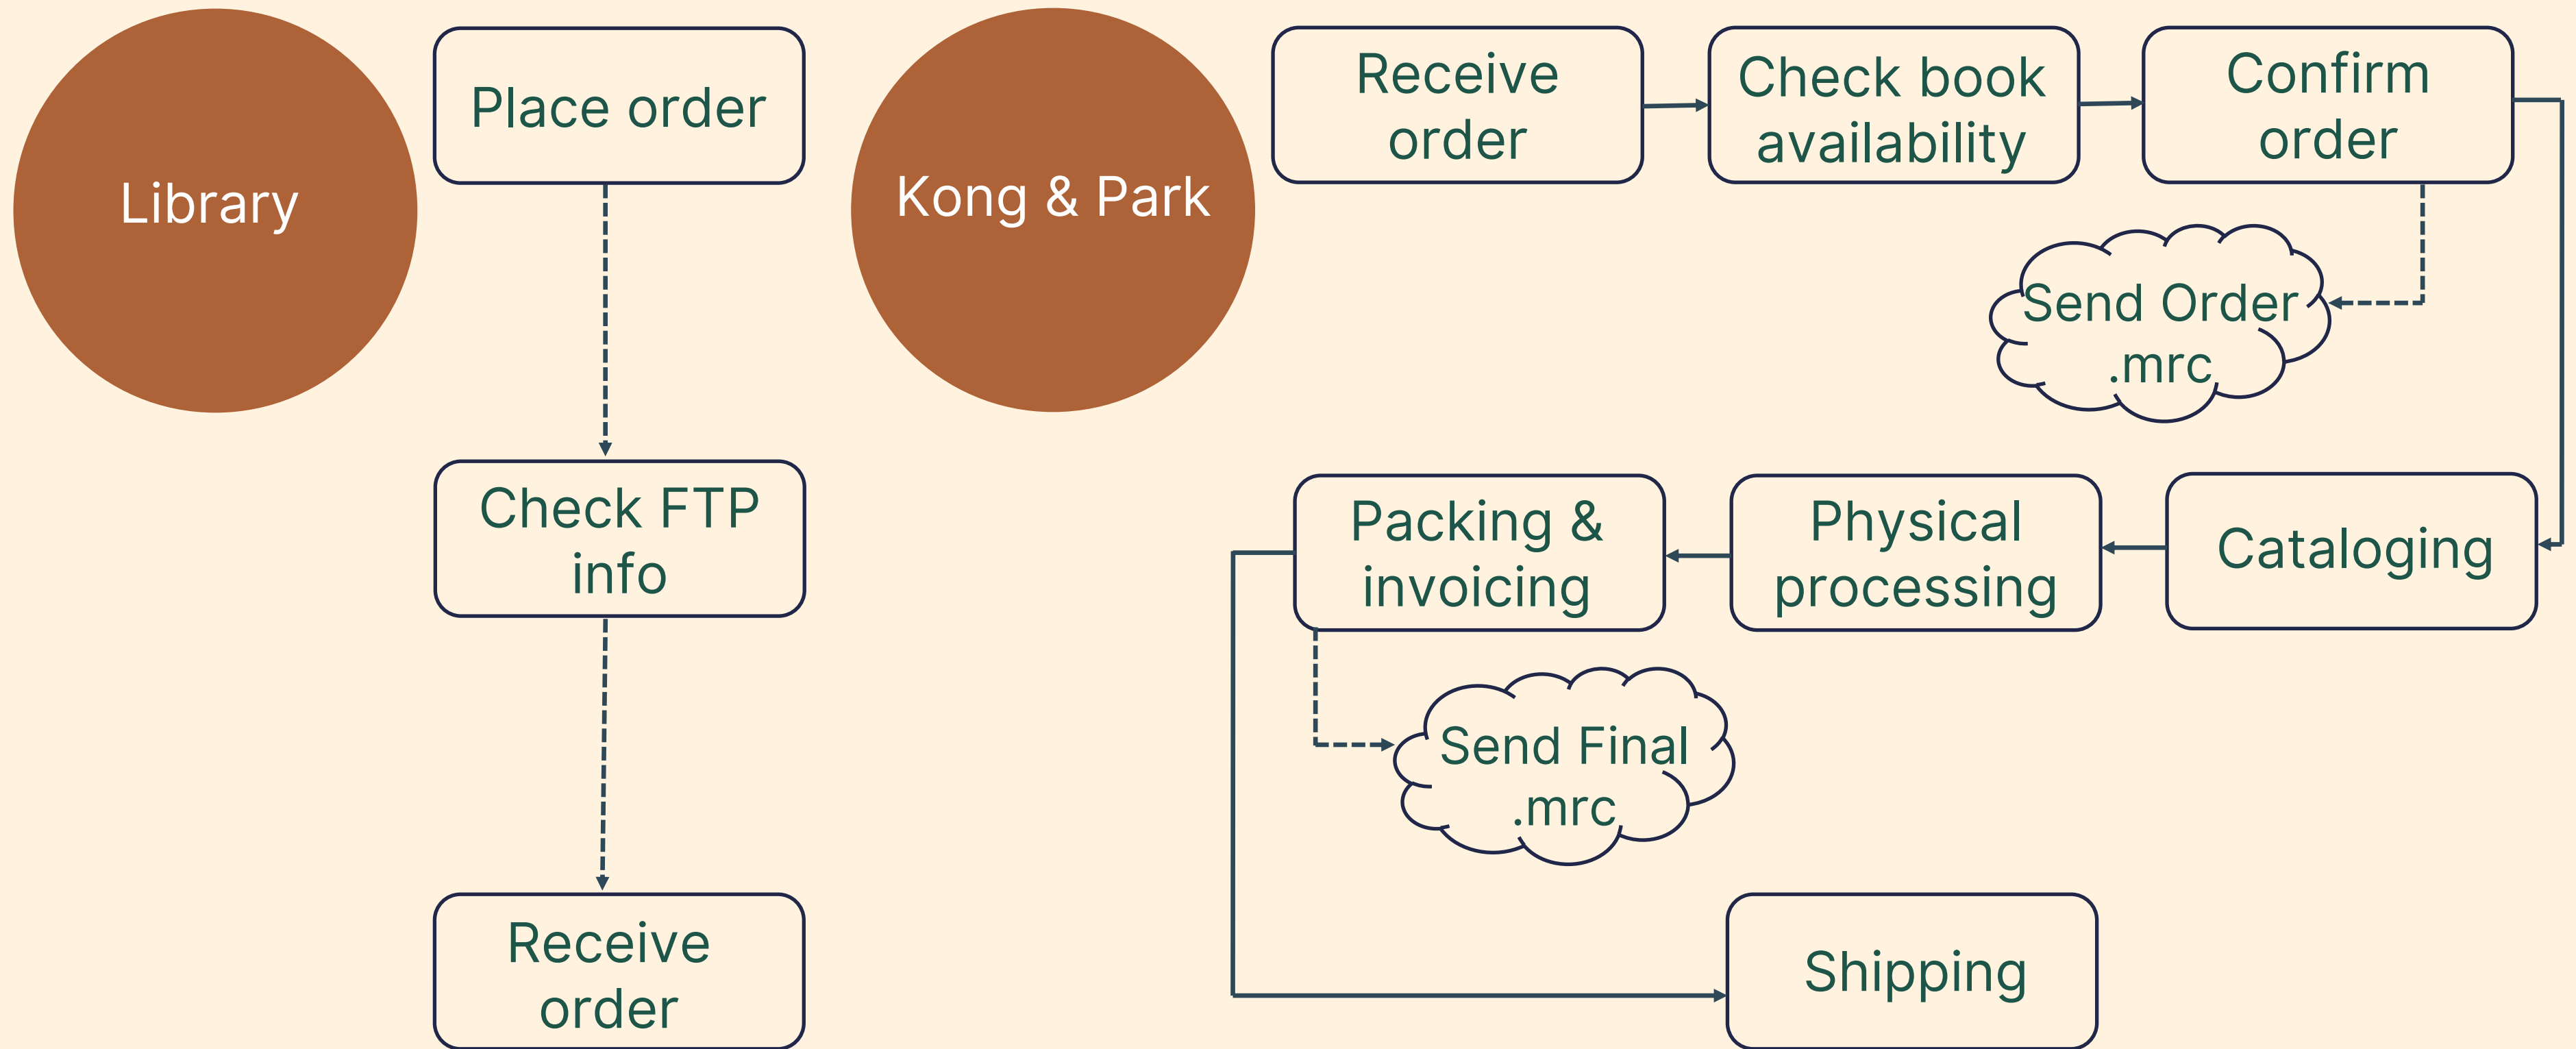

On the search page you can select the books that will go through the shelf-ready process by clicking on the shelf-ready box.

The screenshot shows a search result for the book "The Exploration of Korean Buddhist Thoughts" by Kim Jong Wook, published by Dongguk University Press in 2018. The price is listed as ₩30,000. On the right side of the result, there are four icons: a red shopping cart, a red building, a green shopping cart, and a green building. Below these icons are two checkboxes: "Express delivery" (unchecked) and "Shelf_Ready" (checked). The "Shelf_Ready" checkbox is circled in red.
