

CEAL CTP Program

March 12, 2026

Vancouver, Canada

CTP Members (2023-2026)

- Chair: **Lia Contursi, Chair** (Princeton University Library)
- Members:
 - **Ellie Kim** (University of Hawaii)
 - **Hyun Chu Kim** (Kennesaw State University)
 - **Jian Ping Lee** (University of Washington)
 - **Mary Muratsubaki Company** (Cornell University)
 - **Kumiko Reichert** (Indiana University Libraries)
 - **Chiaki Sakai** (Columbia University)
 - **Runxiao Zhu** (University of Pittsburgh)

CEAL-LC Cataloger Internship Program

- **Subcommittee:** Jian Ping Lee, Kumiko Reichert, Runxiao Zhu
- 2026 CEAL-LC Interns:
 - **Mintian Guo**, Chinese Monograph Cataloger, Indiana University Libraries, Bloomington
 - **Jungeun Hong**, Korean Heritage Library Liaison, University of Southern California

CTP Program Presenters

Excel's Power Query: Streamlining User Selection from Vendor's Book Lists

A Human-Centered Approach to Partial Automation

- Adam Lisbon, Associate Professor Japanese & Korean Studies Librarian, University of Colorado Boulder
 - Adam Lisbon is the Japanese and Korean Studies Librarian at the University of Colorado Boulder. One of his primary interests is using technology to automate and enhance the everyday work of librarians. Especially if new workflows can center human interaction with faculty, students, and other librarians. Professor Lisbon's current research is exploring how Librarians build collections in in languages they don't speak.

CTP Program Presenters

Exploring the Use of Generative AI for Cataloging Chinese-Language Materials: A Case Study Using ChatGPT

- Cecilia Zhang, Chinese Studies Librarian, University of Kansas Libraries
 - Cecilia Zhang serves as the Chinese Studies Librarian at the University of Kansas. Her research focuses on AI applications in academic libraries, East Asian collection development, and contemporary East Asian visual and fan culture.
- Adrienne E. Sanders, MLS, is a Rare Materials Cataloging Librarian at the Kenneth Spencer Research Library at the University of Kansas
 - Adrienne E. Sanders, MLS, is a Rare Materials Cataloging Librarian at the Kenneth Spencer Research Library at the University of Kansas. Areas of research interest include careers and developments in cataloging and metadata and material bibliography. She is passionate about authority work and issues relating to access.

CTP Program Presenters

Cataloging Chinese Film Posters: Challenges and AI Solutions

- Haiqing Lin, Head, Technical Services C.V. Starr East Asian Library, University of California, Berkeley
 - Haiqing Lin is Head of Technical Services at UC Berkeley's C.V. Starr East Asian Library. His work focuses on applying AI and machine learning to library science and digital humanities. He specializes in leveraging LLMs, RAG, and computer vision for tasks like automated cataloging and object extraction, often integrating these with linked data and GIS. Recent projects include AI-generated cataloging records, metadata creation for the Yuan Ren Chao Papers, and work on the Fonoroff Collection.
